PROFILE SUMMARY

Full Stack Developer with 1+ year of hands-on experience in designing, developing, and deploying web applications using Python, Flask, React.js, and MySQL. Proficient in building scalable RESTful APIs, implementing robust backend business logic, and ensuring seamless database integration. Strong expertise in front-end development, specializing in creating responsive user interfaces, dashboards, and interactive components. Authored a comprehensive Python programming book, demonstrating strong technical knowledge and communication skills. Contributed to ERP systems, pharmacy management solutions, and the Lakhotia project in real-world production environments, delivering reliable and efficient software solutions.

WORK EXPERIENCE

V4 Sure IT Solutions, Chennai

Mar 2025 – Present

Full Stack Developer

- Developed and deployed a comprehensive ERP Office Management System using Python (Flask) and MySQL, including Attendance, Examination, and Fee Management modules.
- Successfully implemented the ERP solution for SDS Polytechnic College and Lakhotia Enterprises Pvt. Ltd., supporting real-world production use.
- Built a Pharmacy Management System with features for prescription processing, inventory control, billing, and sales tracking.
- Designed and implemented RESTful APIs to support seamless frontend-backend communication.
- Optimized MySQL queries and database schemas, improving system performance and reliability for 200+ active users.
- Collaborated with stakeholders to gather requirements and deliver scalable, maintainable solutions.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology

2020 - 2024

Hindusthan Institute of Technology, Coimbatore

CGPA 8.8

PROJECTS

ERP Office Management System

Production Project | Full Stack Developer

- Designed and developed a full-scale ERP system with modules for Attendance, Examinations, Fees, and User Management.
- Built secure RESTful APIs for frontend–backend communication and role-based access.
- Designed optimized MySQL schemas and queries, ensuring data integrity and performance.
- Deployed the system for SDS Polytechnic College and Lakhotia Enterprises Pvt. Ltd., supporting 50+ active users.
- Improved administrative efficiency by automating manual office operations.

Tech Stack: Python, Flask, MySQL, React.js, REST APIs

Pharmacy Management System

Production Project | Backend Developer

- Developed a pharmacy system to manage prescriptions, inventory, billing, and sales reports.
- Implemented stock alerts, purchase history, and daily sales tracking.
- Optimized backend logic and database queries for fast and reliable transactions.

Tech Stack: Python, Flask, MySQL

E-Commerce Web Application Prototype

Academic Project

- Built an e-commerce prototype featuring product listings, shopping cart, and checkout workflow.
- Designed relational database models for products, users, and orders.
- Focused on clean backend architecture and user-friendly navigation.

Tech Stack: Flask, MySQL, HTML, CSS

SKILLS

- | | |
|---|--|
| • Full Stack Web Development | • Database Design & MySQL Optimization |
| • RESTful API Design & Integration | • Object-Oriented Programming (OOP) |
| • Backend Development with Python & Flask | • Front-End Development with React.js |

TOOLS

- | | |
|----------------------------|------------|
| • VS Code, Pycharm | • Figma |
| • Postman, Swagger, GitHub | • Adobe XD |
