ABOUT ME

Full Stack Developer with 1 year of hands-on experience in Python, Flask, React.js, and MySQL. Skilled in building REST APIs, backend logic, and seamless database integration. Strong front-end development experience in developing responsive UI components and dashboards. Author of a comprehensive Python programming book. Worked on ERP, pharmacy management systems, and the Lakhotia project in real-world production environments.

WORK EXPERIENCE

V4 SURE IT SOLUTIONS, CHENNAI—MAR (2025)—PRESENT

- Developed and deployed a comprehensive ERP Office Management System, including Attendance, Exams, and Fee modules, using Python (Flask) and MySQL. Successfully implemented for SDS Polytechnic College and Lakhotia Enterprises Pvt. Ltd.
- Built a pharmacy management system with features for prescription handling, inventory management, and sales tracking.
- Designed RESTful APIs and optimized MySQL queries, enhancing system performance and ensuring reliable operations for 200+ active users.
